Projects

Pay-Next — [GitHub](#) — [Explore](#)

June - August 2024

- Revitalized the wallet app, enhancing transaction workflows and simplifying the interface for over 200 users.
- Revamped user interface, boosting user retention by SPA navigation and efficient frontend routing.
- Enhanced transaction processing, **achieving a 95% transaction success rate**, ensuring reliable fund transfer.
- Devised an efficient caching system to streamline data retrieval and storage, reducing server load and costs.
- **Tech Stack:** React, Tailwind CSS, Node.js, Express.js, **MongoDB**, RESTful API, DevUI.

Portfolio — [GitHub](#) — [Explore](#)

March - June 2024

- Crafted an interactive portfolio website with a visually captivating and responsive design, elevating user engagement.
- Authored portfolio website with planned performance, guaranteeing seamless functionality and **98% uptime**.
- Elevated site speed by 35% through lazy loading and efficient asset management, ensuring quick load times.
- Incorporated SEO strategies, enhancing the site's discoverability and improving visibility in search results.
- **Tech Stack:** HTML, CSS, JavaScript, Bootstrap, Canva, Figma, DevUI.

Urban Nest [GitHub](#)

July 24 - Present

- Engineered a PG finder app with advanced price, amenity filters, utilizing Maps API for precise geolocation.
- Constructed secure user authentication using **JSON Web Token** ensuring data integrity for over 40 users.
- Designing a clean UI, boosting engagement and increasing bookings through intuitive navigation.
- Executed **RESTful APIs** to optimize data exchange between the server and client, reducing load time by 20%.
- **Tech Stack:** React, Tailwind CSS, **Node.js**, Express.js, MongoDB, Maps API, RESTful API.

Goal Track — [GitHub](#) — [Explore](#)

September - November 2023

- Developed a to-do app that empowered users to manage tasks effectively, simplifying their workflow.
- Ideated an intuitive and responsive interface, boosting user engagement and satisfaction, for **100+ users**.
- Implemented task updates for marking completion and editing details, improving task management.
- **Tech Stack:** HTML, CSS, JavaScript, Bootstrap.

Skills

Languages	C, C++, JavaScript.
Frameworks:	React.js, Express.js, Tailwind CSS.
Tools:	Visual Studio Code, Git, GitHub, Postman, MongoDB, Node.js.
Others:	UI, Graphic Design, Dev UI, Canva, Figma.
Soft Skills:	Team Collaboration, Problem-Solving, Leadership.

Achievements

- Achieved Elite + Silver Medal in the NPTEL Introduction to IoT course with a **score of 77%**. [LINK](#)
- Accomplished **200+ DSA** questions on various platforms like Leetcode, Geeks for Geeks, and Coding Ninjas.
- Built a city cleanliness rating system in hackathons, addressing real-world problems with team collaboration.
- Participated in Flipkart Grid, tackling competitive challenges that refined collaboration skills. [LINK](#)
- Managed a 5-member cross-functional team in-house and national/international workshops with a team on AI & ML.

Positions of Responsibility

Organizer @ UAV Workshop: Led a UAV workshop with **55+ participants**, offering hands-on demonstrations.

Lead @ Robotics Club: Collaborated on robotics projects, designing and building systems for educational purposes.

Organizer @ AI & ML Workshop: Led a workshop for over **1000 attendees** on AI and ML fundamentals and use cases, **attaining a 96% satisfaction rate**. [LINK](#)
